EDUCATION

B.A. Computer Science | **University of California, Berkeley**
GPA: 3.96/4.0

Relevant Coursework | Computer Science Principles, Data Structures, Computer Programs, Discrete Mathematics and Probability Theory, Machine Structures, Software Engineering, Statistics

SKILLS

Java, Python, SQL, Flask, Django, Jinja, JavaScript, HTML, CSS, GIT/GitHub, LaTeX, Scheme, After Effects, Illustrator, Markdown

WORK EXPERIENCE

FASOO| Software Engineering Intern
Full Stack • Cybersecurity • Summer 2021

- Construct a Python Flask Testapp for Sparrow SAST and DAST development. Test, implement, and improve Sparrow SAST Python checkers.

ESKO R7 Technology | Business Intern
Technical Translation • R7 Technology • Summer 2018

- Technical (SCR system, dioxin catalyst, and ceramic equipment) translator for international communication to China and the United States.

USHER Academy Inc. | Teaching Assistant
English Instruction • Marketing • Summer 2020

- TOEFL English instruction/correction and marketing duties (power blog management)

PROJECTS

Python WebGoat | June 2021 — August 2021
Professional Project (Fasoo, Sparrow) • Python, Flask, SQL, HTML5, CSS3, JS

- Implemented an intentionally vulnerable web application (WebGoat) through Flask (Python Web Framework) for Sparrow SAST and DAST development.

Personal Website | March 2021 — Present
Personal Project (Website) • Bootstrap, HTML, CSS, JavaScript

- Created a static portfolio website using Bootstrap, HTML, CSS, and JavaScript. You can view all of my projects here: woohyunmjo.com

Gitlet | March 2021 — April 2021
Academic Project (CS61B) • Java

- Implemented a version-control system that mimics some of the basic features of the popular system Git.

Scheme Interpreter | November 2020 — December 2020
Academic Project (CS61A) • Python, Lisp (Scheme)

- Implemented a command line Python program that interprets Scheme (Lisp) code through syntactical and lexical analysis.

Moneythings | June 2018 — March 2020
Personal Project (YouTube Channel) • Flat Animation Motion Graphics • After Effects, Illustrator, Audacity

- Created bite-sized, flat-animation infographics content produced via After Effects CC as a complement to motion graphics independent study.

Metaport | May 2018
Team Project • Global Youth Entrepreneurship Challenge

- Proposed an urban transportation system powered by electricity from microbial fuel cells that treat human urine in public restrooms.

ACTIVITIES

Habitat for Humanity (HFH) | President, Volunteer Coordinator **|** September 2017 — May 2020

- Oversaw all internal and external operations and organized teams to build homes in Thailand and South Korea.
- Raised and donated $12,000 USD to Habitat for Humanity Korea during my tenure as president.

Future Business Leaders of America (FBLA) | Vice President **|** September 2016 — May 2020

- Global Youth Entrepreneurship Winner, Korea Business Competition Grand Champion (2)

Computer Science Undergraduate Association (CSUA) | Member **|** August 2020 — Present

Speech & Debate Club (Forensics)| Coach's Choice **|** September 2016 — May 2020

- Cornell-Yonsei Invitational Grand Champion, NSDA Korea Nationals 3rd Place, Recognition by the Korean National Assembly (2)
